

selected public streets, there may be crossings at grade level and some driveway connections. See related "Full Control of Access."

**Patio:** A hard-surfaced area accessory to the primary structure or use of which the horizontal area is at grade level with at least one side open to the weather and essentially unobstructed to the sky. This area is specifically designed and intended for the recreational enjoyment of the occupants and guests of the primary structure or use and not designed or intended for use by automotive vehicles. See related "Deck."

**Patio, Covered:** A hard-surfaced area accessory to the primary structure or use of which the horizontal area is at grade level with at least one side open to the weather and permanently roofed or similarly covered. This area is specifically designed and intended for the recreational enjoyment of the occupants and guests of the primary structure or use and not designed or intended for use by automotive vehicles.

**Paved stand:** A permanent area specifically designed and intended for the location, securing, and use of a mobile dwelling on a non-temporary basis encompassing completely the area immediately below or covered by such dwelling including necessary plumbing, power, and other utility installations. The mobile dwelling's foundation, consisting of runners, ribbons or piers, usually made of concrete for the purpose of blocking the dwelling, are within this area.

**Pavement (or paving):** A layer of concrete, asphalt or coated macadam or a layer of bricks, modular pavers, used on street, parking areas, sidewalks, walkways, or airport surfacing; or permeable paving materials when approved by the City for specific portions of a site as an alternative to concrete, asphalt, or coated macadam.

**Pawn Shop:** An establishment where money is loaned on the security of personal property pledged in the keeping of the business owner or operator. Accessory uses include the retail sales of primarily used items after the property securing the loan becomes the property of the business owner or operator.

**Pedestrian Ramp:** An inclined access opening along the curb line at which point pedestrians, unassisted or assisted by a wheelchair, walker or similar feature, may enter or leave the street; or, an incline providing pedestrians, unassisted or assisted by a wheelchair, walker or similar feature, access from the ground to an elevated surface.

**Pedestrian Sign:** Small freestanding sign that is located in pedestrian areas, such as sidewalks or plazas, and that is less than 40 lbs. and movable. Pedestrian sign may be an A- or T-framed sign. Banner may be a pedestrian sign if located on fencing or a landscaping wall.

**Permanent Sign:** A nontemporary sign designed and intended for long-term use.

**Permit Application.** A complete application with all accompanying information required by the Zoning Ordinance or regulations adopted pursuant to the Zoning Ordinance, and including both an initial application and any applicable renewal application of an existing permit, such as in the GSB district, that has not expired.

**Permitted Use:** Any use authorized by right in a particular zoning district and subject to the restrictions applicable to that use and zoning district.

**Personal Garden:** A private facility or area for the cultivation of vegetables, grasses, fruits, flowers, shrubs, vines, trees, and domesticated bees as an accessory use by a resident or occupant of the site whether it be for purposes of producing food or materials. This definition includes the composting of on-site materials. This definition does not include high weeds and grass, nor does it include farming or beekeeping for commercial purposes.

## **T. Personal Garden**

1. Personal beekeeping of domesticated honeybees is permitted in all districts. Without a personal livestock license, the number of bee hives on a site shall be limited to 8 hives. No bee hive shall be larger than 16 cubic feet. The Zoning Ordinance – Indianapolis-Marion County – Effective April 1, 2016
2. Bee hives may be located on the ground or on the roof of a building with a permanent foundation.
3. If the opening of any bee hive located on the ground opens toward an area on-site or another lot that is an activity area, such as a walkway, play area, patio, then a barrier must be provided to cause the bee flight path to be directed at least six feet above the area.
